**COUNTY VOTING COMMISSION**

(Excerpt from the April Jeffries Journal)  
 Supervisor Jeffries represents Riverside County's First Supervisorial District.

**The Bumpy Road to Voting** - The planning and logistics involved with coordinating the efforts to facilitate 1 million voters casting these votes across Riverside County is an unbelievably complex effort that relies on professional staff, temporary staff and trained community volunteers.

The primary end goal, of course, is always "accuracy." But the process leading up to casting our votes and the counting of the ballots is thick with state regulations that are constantly changing. Throw in the occasional partisan battle and any actual campaign disputes and you might just get an ulcer trying to make everyone happy.

There has not been any evidence of fraud or corruption here locally, but I've been advocating for a standing Citizen's Commission in Riverside County, with representatives from the major parties, "3<sup>rd</sup> parties" and independent voters. Not because we need more fingers in the pie, but because we need informed citizens who understand the process, who can offer thoughtful input into the planning, training, staffing, budget needs, and frankly offer an independent point of view to the Registrar of Voters and to the Board of Supervisors. They could independently review the challenges and the possible ways to improve (and no, they wouldn't need or receive access to confidential voter information). At a minimum, a group such as this could provide confidence to residents that our elections have been free and fair.

A report is due back soon to the Board of Supervisors regarding some of these challenges and issues from the past election. Hopefully, it will also address the proposal of creating a "Citizen's Commission on Election Integrity" as I proposed a year ago. Stay tuned.

**THREE STEP PLAN ON IMMIGRATION: WHAT EVERY AMERICAN SHOULD KNOW**

Craig Huey Report April 7, 2021

Approximately 1.2 million to 1.8 million illegal immigrants are crossing the Mexican border to live in the United States this year. 80% to 90% of them are from South Central and Central America. The rest are from Asia, Africa, Europe and the Middle East.

President Biden and his politicalized bureaucracy have created not what some have termed a "crisis" at the border, but a historic, political opportunity in a "three-step plan."

It's a plan to transform politics and our culture.

**Step #1: Allow as many people into the United States as possible, immediately.**

The President has made it easy and is inviting people to illegally enter the U.S. How?

By dismantling President Trump's policies on having immigrants stay in Mexico pending their request to enter the U.S. By dismantling Trump's youth policy – those who are under 21 – to be able to come into the United States freely. By dismantling Trump's efforts of creating a border wall, they have created massive opportunities for invasion of the US borders.

It doesn't matter if they have COVID, have skills or work options, have relatives here or not, are criminals, gang members or from the cartel, are terrorists – already two from Yemen have been captured.

Continued in Column 3

Major Corporations speak out against Georgia's Election Reform Bill. Possibly it is time for a boycott of the following: **Coca-Cola, Delta Airlines, ViacomCBS, and Major League Baseball!**

Continued from Column 2

**Step #2: Allow immigrants to have a nice hotel room until they are able to get their own shelter. Give them free transport to a location of their choice anywhere in the United States.**

As a taxpayer, you are footing a big bill. With your tax money the government is teaching them how to get on welfare, get food stamps, get their stimulus checks, how to get free education, free housing, how to get free medical care and other free government benefits.

And what happens when everything is given? You create dependency upon the government caring for you.

**Step #3: The ultimate goal of the "3 Step Plan" is to allow the new immigrants to vote in the next election. How?**

Once the new immigrant is shown how to register for Social Security, Medicare, Obamacare, food stamps, housing, and to get a driver's license at the Department of Motor Vehicles, they will be able to vote. Once signed up for the DMV, they are automatically registered to vote – unless they purposely say "No, I'm not eligible to vote."

Now you have a voting block of over a million people dependent upon government and uneducated in American history. They are unfamiliar with economics and the working of the free enterprise system versus socialism. Most are fleeing socialism, but not realizing it.

The "three step plan" is enabled by community groups, nonprofit groups and community organizers to make sure that they vote right – for more dependency.

They become a powerful way for Biden and his friends to be able to accelerate the transformation of our culture and politics based upon a pro-socialist, anti-religious worldview.

HR 1

The following are excerpts from AMAC Magazine, "Election Reform at the State Level: What Needs to Get Done". April issue, page 20., Bob Carlstrom.

"The Constitution of the United States guarantees the right of every eligible citizen to cast an equal vote to determine who will represent him or her in government.

...practices that promote the casting of illegal or unreliable ballots are inherently a violation of the Fourteenth Amendment by leading to the diminution in value of validly cast ballots not only in that state but also in other states, as in the 2020 case of the election of the president and vice president of the United States.

...HR1 federalizes elections, overrides the Constitutional sovereignty of the states to conduct elections and imposes detailed requirements upon the states that inherently enable fraudulent voting.

...The following are just a few examples of the bill's outrageous proposed takeover of all elections and fostering of conditions

- ◆ Prohibiting requiring a state voter ID to obtain a mail-in ballot and permitting individuals to simply sign a sworn statement as to identity.
- ◆ Virtually eliminating any restrictions on voting by mail.
- ◆ Requiring states to offer online registration and same-day registration and voting
- ◆ Effectively permitting "voter harvesting"—picking up and delivering bundles of votes.

...HR1 should never become law. It needs to be stopped in the U.S. Senate and the State Legislatures need to act.

...2021 and early 2022—before the 2022 elections—must be a period of substantial review by state legislatures of their laws and action to ensure the legitimacy and integrity of votes cast and counted in their respective states.

**TRIVIA**

If poison passes its expiration date, is it more poisonous or is it no longer poisonous?

The word 'swims' upside-down is still 'swims.'

How come noses run and feet smell?

Did you know that if you replace 'w' with 't' in "What, Where and When", you get the answer to each of them?

How important does a person have to be before they are considered assassinated instead of just murdered?"

Why is it that people say they "slept like a baby" when babies wake up every two hours?

When wearing a bikini, women reveal 90 percent of their body...men are so polite they only look at the covered parts.

America is a country which produces citizens who will cross the ocean to fight for democracy but won't cross the street to vote.

Irish doctors and German engineers who want to immigrate to the US must go through a rigorous vetting process but any illiterate gangbanger who crosses the southern border illegally is welcome.
