A BILL ALERT

Monday, February 2, the California Assembly passed AB 1421, the mileage gas tax. The California Mileage Tax proposal would require tracking every driver's mileage and charging them a tax per mile driven. AB 1421 asks legislators to have a proposal ready by January, 2027 on how much tax to charge and how to collect it. This tax is on top of the .67 taxes charged on every gallon of gasoline at the pump.

Once AB1421 passes the Senate and is signed by the Governor, the legislature can dictate the amount to charge for each mile. Do we trust them???

There is also the reality that this is double taxation. One pays high taxes at the pump and then will be charged an additional tax or fee for using the gas!!!

Question arises as to how the mileage will be calculated. Will each auto have a tracking device installed by the Government? If so, they can also track individual's activities.

If you don't agree with AB1421, call **Senator Sabrina Cervantes, SD31, Chair of the Appropriations Committee**. She represents San Jacinto. Her number is 951-680-6750. Clog her phone lines.

WINNERS AND LOSERS

Every week Jon Fleishman runs a column of the ten winners and losers of the week. Following are three for this week.

WINNERS: GOVERNOR GAVIN NEWSOM AND ATTORNEY GENERAL ROB BONTA

This week, they notched a courtroom win when the U.S. Supreme Court refused to issue an emergency order blocking the use of the Proposition 50 district lines for the 2026 elections.

Like it or not, that ruling locks in the political map Democrats helped shape and gives their party a clearer runway heading into the next cycle. For incumbents and allies counting on those lines, stability is a strategic advantage, and avoiding legal upheaval this late in the process is a victory.

WINNERS: LOS ANGELES DODGER:

By deciding to visit the White House after winning the World Series, the team is once again making clear that championship traditions are bigger than partisan politics. Presidents come and go, but honoring a title season is part of the sport's long-standing civic ritual. Instead of turning a baseball celebration into a political statement, the organization treated it as what it is supposed to be — recognition of excellence on the field. In an era when everything becomes a culture war skirmish, keeping the focus on baseball counts as a win.

LOSERS: POLITICAL LEADERS IN MERCED

For proposing that California's perpetually overbudget and unfinished high-speed rail project should be "extended" all the way to Yosemite National Park, local leaders in Merced have handed Californians yet another symbol of the boondoggle that has plagued the state for nearly two decades. With the rail line still years from completing even the Merced-to-Bakersfield segment, and with huge cost overruns, talking about a Yosemite link plays into fantasies rather than fiscal reality. Pushing for a rural "Merced-Yosemite" station plan underscores the lack of seriousness around this project and highlights how disconnected some local politicians are from basic transportation and budgetary realities.

Big Win You Didn't Hear About: Trump's India Deal Hits BRICS and Puts America First NFRW President Martha Jenkins

Sometimes so much is happening we lose sight of how consequential the times are we are living in.

An example of this is the recent trade deal President Trump reached with India. This deal is significant because the "BRICS" nations (Brazil, Russia, India, China, South Africa and others) have been attempting to move the world away from the dollar as the world's currency and undercut the United States' place in the economic world. This is the third shoe to drop on BRICS nations – the first two being **Iran losing its nuclear capability**, the second being **Venezuela losing control of their oil**.

India has a population of 1.4 billion. Trump does not pay countries for favors. India has a population of 1.4 billion.

(continued in column 3)

(continued from column 2)

Trump does not pay countries for favors (remember Obama sent pallets of cash to Iran). Instead, he leverages America's advantages. India will now be buying American energy instead of Russian oil. India also agreed to **drop tariffs on American goods to zero**, and to buy American technology and agricultural products.

By taking away a market from Putin's oil industry, Putin will lose a source of its war funding. India will now be a customer of the United States.

This is a huge win for America. And Trump hasn't stopped working for Americans. **On Thursday he opened the Trumpx.gov website**, which will give Americans access to **large discounts with most favored nation pricing on drugs from these manufacturers** - AstraZeneca, Eli Lilly, EMD Serono, Novo Nordisk, and Pfizer.

FEBRUARY

February is the only month of the calendar that, once every six years and twice every 11 years consecutively either back into the past or forward into the future, will have four full 7-day weeks. This is the year!!!

The odds of being born on Feb. 29 are about 1 in 1,461. If you're born on a leap day, you're typically known as a "leaper" or "leapling." And depending on where you live, Feb. 28 or March 1 is considered your birthday in non-leap years.

Having only 28 days in common years, it is the only month of the year that can pass without a single full moon. This last happened in 2018.

Four presidents were born in February:

George Washington, Federalist, February 22, 1732 – December 14, 1799 was the first President of the United States from 1789 to 1797 and was one of the Founding Fathers.

William Henry Harrison Sr., Whig, (February 9, 1773 – April 4, 1841) was the ninth President of the United States (1841), and died 31 days into his term.

Abraham Lincoln, Republican, February 12, 1809 – April 15, 1865) was the 16th President of the United States from March 1861 until his assassination in April 1865. He was the first Republican President after the founding of the Party.

Ronald Wilson Reagan, Republican, February 6, 1911 – June 5, 2004 was the 40th President of the United States, from 1981 to 1989. Before his presidency, he was the 33rd Governor of California, from 1967 to 1975.

HISTORY OF VALENTINE'S DAY

The history of Valentine's Day—and the story of its patron saint—is shrouded in mystery. We do know that February has long been celebrated as a month of romance, and that St. Valentine's Day, as we know it today, contains vestiges of both Christian and ancient Roman tradition.

One legend contends that Valentine was a priest who served during the third century in Rome. When Emperor Claudius II decided that single men made better soldiers than those with wives and families, he outlawed marriage for young men. Valentine, realizing the injustice of the decree, defied Claudius and continued to perform marriages for young lovers in secret. When Valentine's actions were discovered, Claudius ordered that he be put to death.

FEBRUARY DATES

February 3, 1870 - The 15th Amendment to the U.S. Constitution was ratified, guaranteeing the right of citizens to vote, regardless of race, color, or previous condition of servitude.

February 3, 1913 - The 16th Amendment to the U.S. Constitution was ratified, granting Congress the authority to collect income taxes.

February 14, 1929 - The St. Valentine's Day massacre occurred in Chicago as seven members of the Bugs Moran gang were gunned down by five of Al Capone's mobsters posing as police.
